ADVICE SHEET 05

For successful whitening

What to do during treatment and to keep the result.

DURING TREATMENT

- Wear the trays for the time you were given.
- Avoid coffee, tea, red wine, coloured soft drinks and smoking during treatment and for the following 48 hours.

SENSITIVITY

- Temporary sensitivity is common: a toothpaste for sensitive teeth helps. If it bothers you, space out the sessions and let us know.

MAKING IT LAST

- Careful brushing twice a day and a regular scale and polish.
- Limit staining food and drinks.
