ADVICE SHEET 17

Do you play a contact sport?

Protecting your teeth during sport and what to do after a blow.

PROTECTION

- For contact or combat sports, wear a mouthguard.
- A custom mouthguard made at the practice is more comfortable and fits better.

AFTER A BLOW

- If an adult tooth has been knocked out: hold it by the crown, keep it in milk and see a dentist within the hour.
- If a tooth is broken: keep the fragment and call the practice.
