ADVICE SHEET 16

Smoking and your oral health

How smoking affects your gums, your treatment and your smile.

THE EFFECTS

- It is the main aggravating factor in gum disease.
- It slows healing and increases the risk of implant failure.
- It stains teeth and contributes to bad breath.

WHAT HELPS

- A scale and polish and regular check-ups.
- Stopping, even temporarily around surgery, improves healing.
- Your doctor or Tabac Info Service (39 89, French quit line) can support you.
