ADVICE SHEET 12

You have a temporary crown

How to look after it until the final crown is fitted.

DAY TO DAY

- Avoid hard or sticky food (toffees, chewing gum) on that side.
- Brush normally; with floss, slide it out sideways rather than pulling it up.

IF IT COMES OFF

- Keep it and call the practice to have it re-cemented.
- In the meantime, do not glue it back with household glue.

THE NEXT APPOINTMENT

- The temporary crown protects the tooth: it is important to come back for the final crown.
